

Aris Nance

I'm a UI/UX Designer with experience in Software Development. I'm from a small town in North Carolina but often refer to Charlotte as my hometown. Professionally I design awesome user experiences, but for fun I enjoy photography, eating at cool places, tinkering with my Arduino and coding personal projects that I open source.

EXPERIENCE

Tirebuyer.com - 4 Month Contract | Seattle
Lead UI/UX Designer | Dec 2018 - March 2019

As a Lead UI/UX Designer I'm visually helping Tirebuyer.com redefine itself. Tirebuyer.com brings in more than 75 in revenue, and designing for millions of users definitely has its challenges. I'm helping to establish brand standards by uniting each brand/product with guidelines and style guides. Our team is lean, fast, and efficient. Under the direction of a great leader, I produce high fi mockups and clickable prototypes for our devs, clients, and stakeholders.

Coinme - Contract | Seattle
Visual Designer & Project Manager | September 2018 - November 2018

Established style guides, brand usage guidelines, voice and tone examples, and high-fi wireframes with a clickable prototype. The goal was to help convey the brand in a compelling and persuasive way to help grow the business. The redesigned site will help increase page visits, increase inquiries, and convert more visitors into leads.

Lavail | Seattle
Sole Designer & Software Developer | May 2015 - Present

Here I showcase my latest technical projects. I also provide open source rails projects! I'm working to build a resource to help and guide others.

Ingeniux Corporation | Seattle
Software Support Engineer | March 2016 - January 2017

Worked with virtualized server environments such as Hyper-V and VMWare. Managed outages and helped triage the incidents. Helped design our teams shared Sharepoint site and modules.

SKILLS

HTML, CSS, Ruby on Rails, Google Cloud, UX Design, Visual Design, Vue.js, JavaScript, Wireframing, Sketch, F5 Big-IP, AWS, Jenkins, Github, Heroku, CLI, Python, Django, React, Heroku, Management, Sketch, UXPin, Adobe Creative

COMMUNITY ENGAGEMENT

YearUp Mentor, ALPFA Seattle, Seattle Fashion Week, SHEO nonprofit founder, Latino Community, Fund, Seattle's Union Gospel Mission.

NBCUniversal | Seattle

Operations Support Analysis - Contract | July 2015 - January 2016

Organized company wide outages for CMS updates and maintenance. Helped coordinate code releases and legacy site code management tools and processes. Very short TTR in diagnosing unplanned site issues. My team Ensured Today.com, NBCNews.com, MSN.com and Newsvine.com were current and accessible without interruption.

Corfini Gourmet | Seattle

Inside Sales Manager - Contract | Jan 2015 - Jun 2015

Strengthened overall sales by improving how we obtain new leads. Provided cost/time saving solutions for our inventory and ordering systems. Developed and executed plans to exceed individual and team quotas.
